

Puzzle #34 – March 2004 "Fair Play"

Instructions: Guess the words defined by the cryptic clues (words vary in length from three to nine letters and include three proper names), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right margin continue on the next line below; down words that don't end at the bottom margin continue in the next column to the right. Four across words and five down words won't fit in the grid unless one of their letters is omitted. Those nine letters, taken in order, spell a word that suggests how all words are to be treated before they are entered in the grid. As ever, I am grateful to Kevin Wald for help with the clues.
