

Puzzle #3 — August 2001 "August"

Instructions: Guess the words defined by the cryptic clues (words vary in length from three to nine letters), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right margin continue on the next line below. Down words that don't end at the bottom margin continue in the next column to the right. Seven across words and seven down words won't fit in the grid unless one of their letters is removed. Those fourteen letters, taken in order, spell a two-word phrase related to the title of this puzzle. Answers include two proper names.
